About Srujan

It is one of the three events of "Vigyan Utsav".

Srujan aims at infusing the spirit of innovation in the students and boost their interest in Science and Technology.

The project could be a simple idea, a detailed study that involves hypothesis, experimentation, analyzing data and drawing conclusion, a model to prove a hypothesis or a tool that demonstrates a Scientific Principle in an original manner, etc.

Students can have a guide, who could be a research scholar or a teacher, and acknowledge the help of their guide in write-up.
